

Welcome to HIQ Home World

With over 20 years of experience in building automation this is what we have to offer

Added Value:

- Place yourself as the **market leader** by offering state of the art technology.
- Be the force behind **change** and leave the ordinary behind.
- Perception of **value** is not only in tiles, but more and more in active **comfort and safety**.
- **Customer** experience greatly **improved** with seamlessly control with smartphone.
- **Healthier** choice, no more 50Hz non ionizing radiation due to 24VDC installation, (230V/50Hz) only when and where needed.
- **Connected** homes provide for better user experience.
- Customer **satisfaction**

Cost Efficiency:

- **HIQ** is the **best price/performance** in adding **value** to your product.
- Extremely competitive **price** even when compared to standard non intelligent systems we also give you the option to install the system in **different** stages with different price points.
- **Save money** with our solutions by reducing the installation **time** and materials used by electro installers.
- No **technical skills** needed, everyone is able to set up the system with a **simple** press of a few buttons.
- Allow your **customers** to do **future** expansions without the need for construction works.
- **Integrate** your manufacturing and QA process for **better** product and customer **satisfaction**

Energy Efficiency:

- Allow your homes to **learn** from your clients, let them **teach** the home what their basic **needs** are, the system will learn and adapt.
- Give them the **full control** to set different heating/cooling timetables for week days and weekends.
- They are in control of what they **spend** with full **analysis** of their electrical consumption.
- Their home will **benefit** from **smart grids** and it will use the **cheapest** available **energy**.

Active Home:

- **Include** Robotina roof top **solar power plant**, **HEMS – Home energy management system** and battery so they can become self-sufficient and energy independent. **Improve** even more your **savings**.

Comfort and Security:

- Set your **scenes**, so at the press of a button the home will automatically **transform** according to what you want from her, whether you want to wake up to a beautiful sunrise, to watch a movie or even to switch **everything** off when you are running late you can now do it with the **simple** press of a button or with your smartphone.
- Our solutions give your **customers** the right **peace of mind** when they are away by having random lights turning on and off at set intervals and by knowing that they will be **alerted** in case something goes wrong.

Connected Home:

- Offer your customers “**a home away from home**”. Let them stay in touch with their home and use services from HiQ Universe (cloud).
- In **addition** you can develop new **services** i.e. maintenance, facility, management and others where you can **monitor** your product **remotely**.
