

HIQ

COMFORT AND SAFETY WITH HIQ

THE NATIVE SMART HOME

Home automation
Top industry standard quality
Your home changes as you change

 robotina

Comfort wake up

Wake up into a warm house. The system turns on heating at a set time before the smartphone wake-up alarm rings.

Sunny wake up

Wake up naturally. The system slowly lifts room blinds and let the sunlight enter the bedroom few minutes before wake-up alarm rings.

Coming home

Let your house show you how happy it is when you return home! As soon as phone connects to home wi-fi network, it turns the heating and lights on.

Leaving home

Few minutes after exiting the house, and after disconnecting from home wi-fi, the system turns off heating and/or lights.

Random lights

When family is away from home a simple deception with a set light sequence can prevent burglary.

Smart lights

With evening twilight as the sun falls, the system sets evening scene. Lights turns on and blinds close down.

Call notification

When selected phone rings, lights blink couple of times, to bring attention to incoming call.

Bio offset

Following your bio rhythm the house could be slightly warmer at specified moment of the day, whenever it suits your needs.

Lights

On/off and dimmable control with scenes, schedule, PIR, ...
