

HEMS v1.2.0

HEMS is the most advanced solution for Home Energy Management:

- **maximize in-house consumption of self generated renewable energy**
- **minimize cost of electrical energy**
- **contribute to local micro grid balance as a prosumer**
- **provide relevant information and help understanding energy flow**
- **control and manage devices (producers, consumers, prosumers)**
- **get access to flexibility trade and other digital services**
- **to manage charging of electric vehicles (EV fleet)**
- **to protect main fuse from overcurrent**
