# **HIQ UNIVERSE - Service provider**

Accounts with access level of service provider have additional fields available:

- Instance manager
- Data API account manager
- Fleet manager

## Side menu

HIQ Universe   User instances × +						-		×

Side menu is activated by clicking menu icon (three horizontal lines at top-left). Menu items are dynamically created so they can be different for each service provider:

- Home page  $\rightarrow$  section with all your subscribed HIQ Universe devices and services
- **TOOLS** → section with general site tools
  - $\circ \ \text{Profile}$
  - Instance manager → "Overview of installed systems"
  - Reports
  - Data API account manager → "API key management"
  - Fleet manager → "Aggregation and overview of service providers installed systems"
  - Sign out

### **Overview of installed systems**

Table shows all installed systems by the service provider and their additional info:

- Name
- Type
- Users
- Status

Clicking on the instance name will take you to instance home page as seen by end users. Clicking on the plus sign displays additional instance info:

- Basic details
- User's details

An application programming interface key (API key) is a unique identifier used for calling program with an API.

Clicking on Create account will create a new Data API key that can be renewed or deleted.
