

HIQ UNIVERSE - Service provider

Accounts with access level of service provider have additional fields available:

- Instance manager
- Data API account manager
- Fleet manager

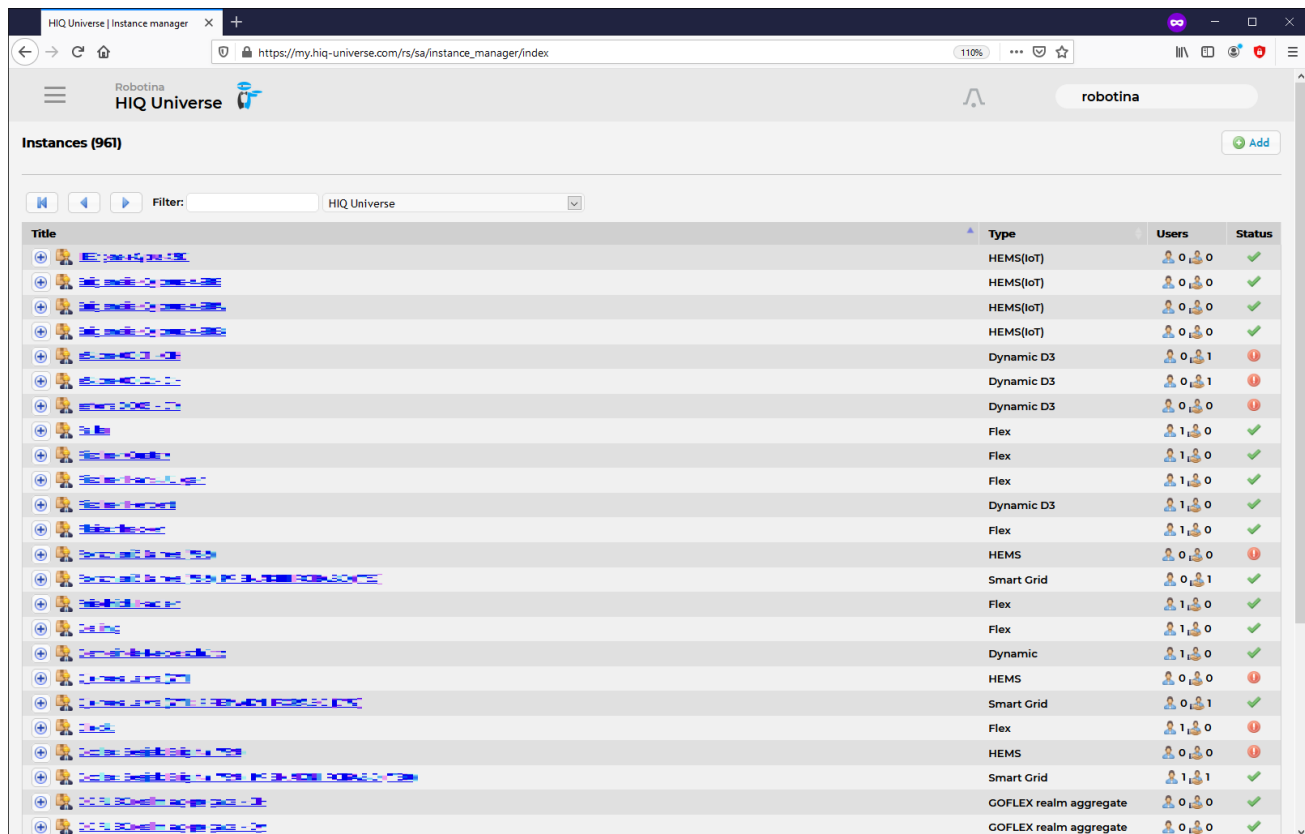

Side menu

Side menu is activated by clicking menu icon (three horizontal lines at top-left). Menu items are dynamically created so they can be different for each service provider:

- **Home page** → section with all your subscribed HIQ Universe devices and services
- **TOOLS** → section with general site tools
 - Profile
 - Instance manager → "Overview of installed systems"
 - Reports
 - Data API account manager → "API key management"
 - Fleet manager → "Aggregation and overview of service providers installed systems"
 - Sign out

Overview of installed systems

The screenshot shows the 'Instances (961)' page in the HIQ Universe Instance Manager. The interface includes a search bar, a filter dropdown set to 'HIQ Universe', and a table of installed systems. The table has columns for Title, Type, Users, and Status. The 'Title' column contains instance names with a plus icon for expansion. The 'Type' column lists various system types. The 'Users' column shows the number of users for each instance. The 'Status' column indicates the health of each instance with a green checkmark for 'OK' and a red exclamation mark for 'Error'.

Table shows all installed systems by the service provider and their additional info:

- Name
- Type
- Users
- Status

Clicking on the instance name will take you to instance home page as seen by end users. Clicking on the plus sign displays additional instance info:

- **Basic details**
- **User's details**

The screenshot shows the 'Basic details' tab of the HIQ Universe Instance Manager. The interface includes a navigation bar with 'Basic details' and 'Users' details' tabs. Below the tabs are 'Edit' and 'Delete' buttons. The main content area is divided into four sections: 'Basic information', 'Connections', 'Instance parameters', and 'Instance controllers'.

- Basic info
- Connections
- Instance parameters
- Instance controllers

Parameters can also be changed with click on Edit button.

The screenshot shows the 'Instances (1)' section of the HIQ Universe Instance Manager. The instance 'robotina' is listed with a status of 'HEMS(IoT)' and 1 user. The 'Users' details tab is selected, showing the 'Owners' and 'Guests' sections. The 'Owners' section has a table with one row for the owner, with columns for 'Owner email address', 'Share content', 'Share reports', 'Allow write to device', and 'Remove'. The 'Guests' section is empty, with a message 'There are no guests on this instance.' and a 'Save users' button. The footer contains the Robotina logo, contact information, and a note about the software being powered by SMIP v. 2.24.r2.

User's details shows all user that have access to this instance.
Owners can be added or deleted and have control, overview and settings over this instance.
Guest account can be added or removed and will have an overview and control of an instance.
Guests can not change the settings.
Each instance can have max 1 owner and several guests.

API key management

The screenshot shows the 'Data API account manager' section of the HIQ Universe interface. It displays a message 'No Data API account' and a 'Create account' button. The footer contains the Robotina logo, contact information, and a note about the software being powered by SMIP v. 2.24.r2.

An application programming interface key (API key) is a unique identifier used for calling program with an API.

Clicking on Create account will create a new Data API key that can be renewed or deleted.
