

HIQ Universe

cloud service for internet access

[HIQ Universe](#)

Create HIQ Universe account

The screenshot shows the HIQ Universe login page. At the top, there's a blue header with the "HIQ Universe" logo. Below the header, on the left, is a stylized blue robot icon wearing a tuxedo and holding a tray. To the right of the robot, the text "Your home, smarter" is displayed. Below this text are two input fields for "Email" and "Password". There is a checkbox labeled "Keep me logged in" and a blue "Submit" button. Below the button, there are links for "Forgot your password?" and "Create new account". At the bottom of the page, there's a footer with the "Probotina" logo, copyright information "copyright (c) 1998-2016, all rights reserved", and links for "Contact", "Privacy", and "Terms".

Go to HIQ Universe: [HIQ Universe](#)

The screenshot shows the HIQ Universe registration page. At the top, there's a blue header with the "HIQ Universe" logo. Below the header, on the left, is the same stylized blue robot icon. To the right of the robot, the text "Create new account" is displayed. Below this text are three input fields: "Email" (with the value "goran.kocjancic@probotina.si"), "Password", and "Repeat password". There is a checkbox labeled "Accept Terms and Conditions" which is checked. Below this is a "Nisem robot." (I am not a robot) checkbox with a reCAPTCHA logo. At the bottom is a blue "Submit" button. The footer is identical to the login page, featuring the "Probotina" logo, copyright information, and links for "Contact", "Privacy", and "Terms".

Create and log in into account

Add controller to HIQ Universe

Get Controller serial number Open HIQ Configurator. Controller serial number is under “Autodetect” button on “System” page.

Enable internet access and get authentication code

Add HIQ controller

Check controller status

Connect HIQ Commander through HIQ Universe

Download and install HIQ Commander

On smartphone (Android or iOS) go to PlayStore or App Store. Find and install HIQ Configurator app.

Set HIQ Commander permissions

Go to "Settings - Apps"

Find and select "HIQ Commander"

Click on "Permissions"

Enable all App permissions.

Run HIQ Commander and Autodetect HIQ System

HIQ system must be already configured/[commisioned](#).

HC and your smartphone must be in the same local LAN/WiFi network and this network must be connected to the internet.

Other data connections (i.e. Mobile data) must be disabled.

Accept detected system

Set location: used to calculate sunrise and sunset directly in HIQ Controller.

Set time and date: synchronize HIQ Controller time and date with smartphone.

Enable internet access: HIQ controller can be controlled from everywhere through HIQ Universe.

Select "Disable" if any of the services is not available on your device, otherwise Autodetect will not be possible.

**HIQ Configurator is set to work through HIQ Universe
when you are not at home**

You can change connection mode later

Press three lines on upper right corner and select "Settings"
